

Sprint 3 (6th March- 12th March)

Sprint 3 (6th March- 12th March)

Main Goal:

HAVE A USABLE MVP:

- Users can log in
- Users get advice (energy, workout, nutrition etc)
- Users can log their data and it is saved but secure
- User see their cycle
- → Users have a personalized page with everything we want on there

Further goals:

- Business Model (Subscription, paid/ unpaid, ads, CAC, CLV, software and hardware costs, defining the customer lifecycle - downloading the app to everyday use - might also have the dev team)
- Done Brand Website
- Done user interviews so we can file on what to build

Tasks for Sprint 3
